Moulton Surgery Travel Assessment Form

Please complete this travel form prior to your travel abroad. We recommend you return this form **8 weeks** prior to your departure. If you return this form less than 8 weeks before you are travelling abroad you may not have enough time to receive the vaccines you require or for them to be effective. This may be due to vaccine schedules and appointment availability. If travelling to multiple destinations or backpacking, please allow us as much time as possible.

Some vaccines you may require may not be available on the NHS so you may be advised to visit a private travel clinic. You can find your nearest clinic online.

For the latest up to date travel advice, guidance and vaccine information, for your journey, please visit www.travelhealthpro.org.uk as recommended by the Department of Health and commissioned by Public Health England.

Once we have reviewed your form and if you do/do not require NHS vaccines we will advise you of this by text message or phone call, so you can book an appointment if necessary. Please ensure we have your correct phone number(s).

If you do not require any vaccines but you still want a travel consultation to go through the information on the www.travelhealthpro.org.uk website, please let us know

Dr Darin Seiger, Dr Tania Vaskovic, Dr Varadarajan Srinivasan, Dr Jo Warcaba
Mrs Wendy Ward - Practice Manager
